about me

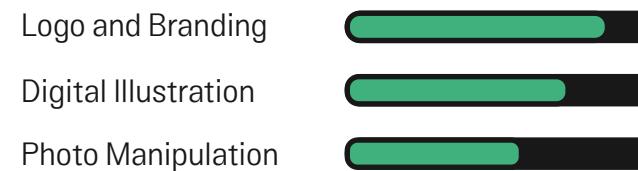

I am an aspiring graphic designer focused on creating sleek, modern design work. With a strong sense of adaptability, I tackle any challenge to deliver clean and cohesive brand identities. My goal is to translate a client's vision into designs that not only resonate with their audience but also elevate their brand across any venture.

GRAPHIC DESIGN SKILLS

personal branding

LOGO CONCEPT

The name **Kihaku** is derived from 2 japanese kanji:

I utilized the negative space in the middle to form the letter **i** while the other letters are merged in to depict the word **KIHAKU**.

I came up with this concept by picking 2 letters from each name that I have. I also wanted to express my fondness of japanese culture and my asian heritage which results to my logo looking like a chinese/japanese character whilst being a monogram to represent my branding in a unique way.

The combination of **Ki** and **Haku** resembles my passion for art since I put my heart and soul into everything that I created.

Ki & **Haku**

heart, mind

soul, spirit

APC SPEAKS

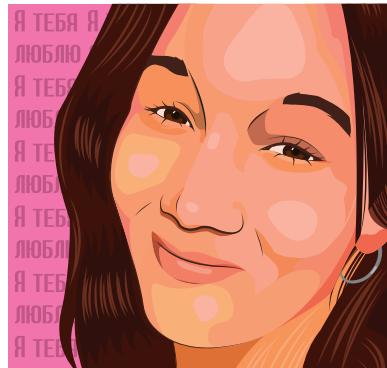

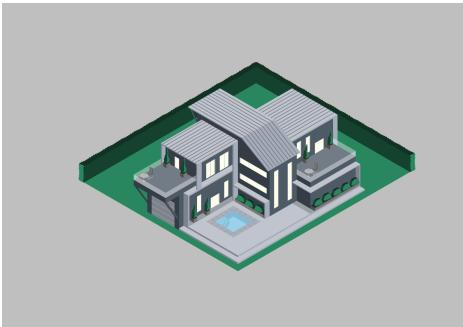

APC
SPEAKS

I strive to create impactful redesigns that **simplify** and **modernize** existing logos while preserving their core identity.

My approach focuses on **strengthening** and **solidifying** the overall brand presence of the company or organization.

DIGITAL ILLUSTRATION

I value **simplicity and clarity** in my digital illustrations.

I focus on crafting clean visuals that resonate ideas effectively and with precision.

My expertise spans from vector portraits, e-sports mascots, and isometric art.

Every piece is carefully refined to ensure that each detail **strengthens and complements the overall concept**.
